Washington, Aug. 2.—The monthly
statement of the public debt, issued at
the treasury, shows that at the close of
business on July 31, 1899, the debt, less
cash in the treasury amounted to
\$1,161,587,671.

Washington, Aug. 2.—The interna-
tional phase of the Italian lynching in
Louisiana has assumed a rather more
serious aspect as the result of
several reports received here. These
show that the Italian officials on the
scene believe that four of the five men
lynched were Italian citizens. While
the reports are not final the Italian au-
thorities have no doubt they will be
borne out by the inquiries now in pro-
gress.

San Francisco, Aug. 2.—Colonel Haw-
kins of the Pennsylvania regiment, died
on July 18, while on board the transport
Senator while en route to this city,
with his regiment, from Manila. Ap-
oplexy is said to have been the cause of
death.

Denver, Aug. 2.—The operating com-
mittee of the American Smelting Com-
pany at a meeting today decided not to
re-open the smelters in this city and
Pueblo at the scale recommended by the
State Board of Arbitration.

New York, Aug. 2.—Miss Barton in a
newspaper article says there are now in
Cuba 50,000 destitute orphan children
of the reconcentrados who have in the
last few years died of starvation and
want. These children are scattered
throughout nearly every city and town
of efficient size and importance to re-
ceive the driven out country people.
They are not children of low or doubtful
origin, but many are of the best
Cuban families. Miss Barton says the
Cubans are not responsible for the desti-
tution of these children. When the
starving reconcentrados were driven
into the towns the residents divided
food and clothing with them and divided
again and again, but there was a point
at which they had to stop giving. Only
for the Cuban rations distributed by our
army it would be a sorry lookout for
these helpless little ones. They range
in number from thirty to one hundred
in the various towns utterly homeless
and no one has the least personal inter-
est in them or responsibility for them.

IS IT RIGHT

For an Editor to Recommend Patent
Medicines?

From Sylvan Valley News, Brevard,
N. C.:—It may be a question whether
the editor of a newspaper has the right
to publicly recommend any of the vari-
ous proprietary medicines which flood
the market, yet as a preventive of suffer-
ing we feel it a duty to say a good word
for Chamberlain's Colic, Cholera and
Diarrhoea Remedy. We have known
and used this medicine in our family
for twenty years and have always
found it reliable. In many cases a dose
of this remedy would save hours of
suffering while a physician is sought.
We do not believe in depending on any
other medicine for such cases, but we
do believe that if a bottle of Chamber-
lain's Diarrhoea Remedy were kept on
hand and administered at the inception
of an attack much suffering might be
avoided and in many cases the presence
of a physician would not be required.
At least this has been our experience
during the past twenty years. For
sale by all druggists.

Dwelling houses are still in demand,
notwithstanding the fact so many have
been built during the past eighteen
months. Yesterday a blushing young
bride called at the Orb office and wan-
ted us to find her a house, as hubby was
at work during the day time and he did
not have time to look around. She
wanted us to move out of our casa
grande to let her have it. We are
naturally of a chivalrous disposition,
always willing and ready to sacrifice
our ease and comfort to oblige the fair
sex, but were necessarily compelled to
refuse in this instance. But did so
with a great deal of reluctance.

ON TO NACOSARI.

The Naco Branch of the A. & S. E. to
Extend Into Sonora.

From a most reliable source The Orb
learns that the Copper Queen company
are soon to begin the work of building
the proposed extension of their railroad
to Nacosari. The surveying party is
now being organized and will soon take
the field. The preliminary survey was
completed some time since, and the es-
timated cost of the road has been made.

The building of this road means much
for the future of Bisbee and Naco. It
will open up a mining country in Sonora
that is at present attracting the atten-
tion of capitalists from all parts of the
country. The Queen company, which
operates in Sonora under the name of
the Moctezuma Copper company, has
put in thousands upon thousands of
dollars during the past six months in
the way of machinery, buildings, etc.,
at Nacosari, and in order to successfully
work the new plant when completed, it
will require an enormous amount of
coke and coal, which cannot be taken in
by wagon in sufficient quantities to keep
the plant moving.

The road will be built only to Naco-
sari at present, but will ultimately be
continued down to the Gulf of Mexico,
the concession having already been se-
cured from the Mexican government. The
building of this road will take a vast
amount of trade from Nogales and
El Paso and give it to Bisbee, or rather
to Naco, which is destined to become
the principal port of entry into Mexico
on the southern border. The trade that
now goes to El Paso by way of Casa
Grande will all come this way, as well
as all of the supplies shipped in.

The road to Nacosari will open up a
vastly rich mineral as well as agricult-
ural country. It will pass right through
the San Miguelito group of mines, owned
by James Shea and partners. The Roy
group, which was recently sold by Mc-
Kim and associates to Denver parties,
will be within about fifteen miles of the
proposed line, and the ore will be shipped
this way instead of via Casa Grande
and El Paso, as at present. The
Cinco de Mayo and other well known
properties will be most thoroughly be-
nefitted. The railroad will not only prove
of immense benefit to the already de-
veloped mines, but will be the means of
opening many valuable prospects which
are not worked on account of their pre-
sent remoteness. The San Miguelito
group is about eighty miles east of the
Cananea mountains, and not quite so
far from Arispe. Near Arispe is located
the famous Santa Rosalie mine, which
was lost for three centuries. Mention
of this mine recalls one of equal interest
in the San Miguelito region. It is called
the "Lost Huacal" mine. The location
papers of this mine have been preserved
in the old Spanish ruins. It was owned
by the Spanish before they were driven
out by the Mexicans, and they left a
map, which locates the mine near Pla-
ceritas. It is described as being mar-
velously rich in native silver. Tradition
says the men used to get the silver
from the workings with chisels and the
pieces taken were used with the gold of
the Santa Rosalie in ornamenting the
churches and public buildings for miles
around. When the Spaniards deserted
the "Huacal" they carefully concealed
the opening, expecting at some time to
return. The Santa Rosalie was con-
cealed in the same way, but it was dis-
covered and reopened a few years ago.
Although hundreds of people have
sought the "Lost Huacal" their efforts
have been unavailing.
